\*These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.

D-Mannose is a simple sugar that occurs naturally in some plants,

including cranberries. Although small amounts of D-Mannose are metabolized by the human body, much of it is rapidly excreted in the urine. In the bladder, D-Mannose can adhere to undesirable foreign substances, preventing them from sticking to the lining of the bladder. Because insubstantial amounts of D-Mannose are used by the body, it does not interfere with blood sugar regulation.\*
