IntelliKal Plus

Clinically studied bone and heart health

Reduce your risk of heart disease by 50%,
prevent and REVERSE bone loss, and you can
also add 10 years back to your life!

Healthy Bones = Healthy Heart

Doctor Recommended

Dr. Frederic Vagnini

Dr. Frederic Vagnini, a board certified cardiovascular surgeon, recommends IntelliKal. With over twenty years experience as a successful cardiac surgeon, he understands the danger of cardiovascular diseases. Today his practice is dedicated to preventing these diseases through nutrition, lifestyle counseling, and health education.

Why should we start supplementing? Because calcium is vital to living a healthy lifestyle, and the American diet is notoriously poor when it comes to consuming the appropriate amount of calcium and nutrients.

Experts agree that it's important to start taking additional calcium as early as 25 years old because of the positive health benefits. We simply don't get enough calcium in our diets and when we supplement with calcium our body doesn't know what to do with it. "IntelliKal is the world's first **SMART** calcium."

IntelliKal is the most complex bone and cardiovascular support product to hit the market. It is created with a special blend of essential ingredients making it **smart**... allowing the calcium to be properly delivered to your bones. This requires the precise amount of **Vitamin D**, **Magnesium**, and **MenaQ7** (the most bio-effective form of essential vitamin K2). Without this combination of ingredients the calcium is **dumb** and very little absorbed by your bones.

We developed IntelliKal with a special blend of the "major players" that are essential for the correct utilization of calcium. For example, we include a special type of Vitamin D, D3 that improves absorption of calcium by as much as 40%. We include Magnesium because calcium can't work without it. MenaQ7 is added to keep calcium from hardening in the arteries and directs it into your bones where it belongs. It's the world's first **smart** calcium.

IntelliKal contains the most potent and active-in-the-body form of vitamin K2, derived from a natural food called "Natto" that has actually been eaten in Japan for hundreds of years! Japanese are known for really low, low rates of hip fractures and heart disease. The American diet does not reach the recommended dosage of vitamin K2...

Beat the Calcium Paradox

The American Heart Association reports that someone has a stroke every 40 seconds and that 1 in 2.8 deaths is caused by cardiovascular disease (CVD). Now medical journals say that heart disease and osteoporosis are connected!

The medical community commonly referred to it as the Calcium Paradox. Patients suffering from both CVD and osteoporosis are shown to have an impaired calcium management system; calcium is found stored within the arteries resulting in stiff and fragile arteries while at the same time the bones lacked the calcium affecting strength and density.

It's simple: the calcium you're taking is hardening your arteries instead of your bones... We simply don't get enough calcium in our diets and when we do supplement with calcium our body does not know what to do with it. Too little calcium results in weak bones and excess calcium winds up adhering to the vessel walls (inducing calcification), which impedes blood flow and increases the risk for a fatal cardiovascular event.

Clinical studies have shown that IntelliKal delivers calcium to your bones – where it belongs.

Calcium mis-direction can cause problems you didn't even suspect. If you have trouble sleeping, if you experience muscle cramps, headache, even migraines; if you have extra weight around your tummy, if you struggle with blood pressure problems, mood swings or low energy; if you are worried about bone loss, heart problems, or you just feel older than what your birth certificate says... you need to take IntelliKal!

IntelliKal™ Bone & Heart Health Formula

Supplement Facts

Serving Size: 4 Capsules
Servings Per Container: 30

Ingredients	Amount Per Serving	% DV
Vitamin D3 (as cholecalciferol)	1,000 IU	250%
MenaQ7™ K2 (as menaquinone 7)	45 mcg	56%
Calcium (from calcium citrate)	400 mg	40%
Magnesium (from magnesium citrate)	200 mg	50%

Other Ingredients: Gelatin, Magnesium Stearate

SUGGESTED USE:

As a dietary supplement, take four (4) capsules once daily or in two divided doses preferably with a meal.

WARNING: NOT INTENDED FOR PERSONS UNDER 18 YEARS OF AGE. DO NOT USE IF YOU ARE PREGNANT OR NURSING. IF YOU ARE USING ANY PRESCRIPTION DRUG OR HAVE A MEDICAL CONDITION, CONSULT WITH YOUR PHYSICIAN OR LICENSED QUALIFIED HEALTH CARE PROFESSIONAL BEFORE USING THIS PRODUCT.

Do not use if printed seal is missing or broken. Store at controlled room temperature between 59° F and 86° F to maintain freshness. Do not refrigerate.

MenaQ7™ is a trademark of NattoPharma ASA.
