CODE 2956 VI

*This statement has not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.

NOW® Dairy Digest Complete is a comprehensive blend of enzymes that is formulated to aid in the digestion of dairy products. Intolerance to dairy is often due to the inability to digest milk sugar known as lactose. However, intolerance is also frequently related to the difficult-to-digest proteins and fats inherent in dairy products. NOW® Dairy Digest Complete contains not only lactase for lactose digestion, but also proteases and lipases that specifically target milk proteins and fat for digestion. With Dairy Digest Complete, it is possible to ease temporary discomfort associated with the incomplete digestion of dairy products, while enjoying the taste and health benefits of them as well.*

SUGGESTED USAGE: As a dietary supplement, take 1 Vcap® with or before each meal containing dairy. One Vcap® digests dairy products equivalent to one cup of whole milk.
