Cordyceps sinensis is a species of fungus that has been widely used by traditional Chinese herbalists for its rejuvenative and adaptogenic properties for hundreds of years. Recent scientific research on Cordyceps has uncovered a broad range of biological actions, which are conferred primarily through its high polysaccharide content. *Cordyceps sinensis* has been found to exhibit antioxidant properties, support a healthy immune system and balanced inflammatory response, as well as to promote healthy vascular function.* NOW® Cordyceps is a 100% vegetarian product made especially for those seeking a traditional supplement for their dietary needs.

SUGGESTED USAGE: As a dietary supplement, take 2 Vcaps® 2 to 3 times daily. Consider taking this product in combination with NOW® Probiotic-10™, Super Colostrum and AllBiotic CF™.
