

CODE 0487

V3

*These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.

Pantethine is a highly absorbable and biologically active form of pantothenic acid (Vitamin B-5). Pantethine forms the reactive component of Coenzyme A (CoA) and the acyl-carrier protein (ACP). CoA and ACP are extensively involved in carbohydrate, lipid and amino acid metabolism. In addition to possessing the metabolic activity of pantothenic acid, Pantethine helps to support healthy serum lipid levels. Pantethine is also important for healthy cardiovascular function through its antioxidant activity.*

SUGGESTED USAGE: As a dietary supplement, take 1 softgel 2 to 3 times daily, preferably with meals. For maximum utilization use this product with other NOW® B-Vitamins.
