Store in a cool, dry place after opening. Please Recycle.

SUGGESTED USAGE: As a dietary supplement, chew 1-2 tablets daily as needed. Consider taking these other NOW® products: Ulacitol™ and Probiotic-10™.

The use of antacids such as Calcium Carbonate for rapid relief of occasional heartburn has been well accepted. Calcium Carbonate works by neutralizing the acid produced in the stomach. It can, however, slow down the digestion of food when used alone because the enzymes secreted by the stomach only work at acidic pH. NOW® Acid Relief with Enzymes contains digestive enzymes that work side by side with antacids, helping to encourage complete digestion of food, even in the presence of reduced stomach acid. NOW® Acid Relief with Enzymes thus goes beyond typical antacids, delivering rapid relief from occasional indigestion, as well as digestive enzymes, in a delicious chewable tablet.*
