7-Keto-DHEA is a natural metabolite of DHEA, and like DHEA, its level in the body is known to decline with age. Furthermore, a decrease in metabolic rate often accompanies this decreased production of DHEA and its metabolites. However, unlike DHEA, 7-Keto-DHEA does not convert to estrogen or testosterone. 7-KETO® is the patented ingredient that has been shown in clinical studies to assist in the maintenance of a healthy body weight and helps to maximize results of a proper diet and exercise. The special blend of ingredients in NOW® 7-KETO® LeanGels™, including CLA and green tea, work to provide healthy weight management, as well as antioxidant power.\*

**SUGGESTED USAGE:** As a dietary supplement, take 1 softgel 2 times daily with food. Consider taking these other NOW® products: Diet Support, L-Carnitine Liquid and LipoTrim.
