PH BALANCER PLUSTM

180 Capsules Dietary Supplement

pH Balancer Plus alkalizes the micro-environment around cells and restores the body's pH level. In our body, cells live within a certain pH range from 0-14. Numbers below 7 represent an acidic or low oxygen conditions in the body, while any number above 7 on the scale represents an alkaline, or oxygenated condition. As a person's pH level increases, it increases oxygen so the body is in a balanced disease-resistant state.*
