overuse.*

Turmeric & Bromelain is a synergistic combination that helps to support a healthy inflammatory response. Scientific studies have shown that the curcuminoids from Turmeric can have a modulating effect on both COX-2 and LOX pathways. Studies on Bromelain, an enzyme derived from pineapple, indicate that this enzyme may have a beneficial effect on immune cell trafficking. Through these and other mechanisms, NOW® Turmeric & Bromelain can help to temporarily alleviate minor joint discomfort caused by overuse.*

SUGGESTED USAGE: As a dietary supplement, take 1-2 Vcaps® 2 times daily, preferably with meals. Consider taking this product in combination with NOW® D-Flame™, Serrazimes® and Flex Mobility™.

Turmeric & Bromelain
