*These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.

Some scientific evidence suggests that consumption of antioxidant vitamins may reduce the risk of certain forms of cancer. However, the FDA has determined that this evidence is limited and not conclusive.

Vitamin C is perhaps the most popular vitamin known to man. It is consumed in a supplemental form by millions of people across the world for its antioxidant properties, which are well-documented in medical research. Calcium Ascorbate is an optimal nutritional supplement that combines Ascorbic Acid (Vitamin C) with Calcium Carbonate. By combining these two dietary ingredients, we have created a buffered source of Vitamin C that will not contribute to gastric irritation in sensitive persons.*

SUGGESTED USAGE: As a dietary supplement, take 1 capsule 1 to 3 times daily, preferably with meals. Consider taking this product in combination with NOW® Bioflavonoid Caps, Grape Seed Extract, Pycnogenol® and Alpha Lipoic Acid.
