DYMATIZE ISO•100® derives its name from its protein source, 100% Whey Protein Isolate, one of the most advanced and effective forms of protein available for support of lean muscle growth. After one serving of Dymatize ISO•100 you can instantly see, taste and even feel the difference! Our 100% Whey Protein Isolate has been processed to the zenith of perfection, removing both the lactose and fat, and giving ISO•100 its incredible instant mixability. Through no less than five quality controlled steps, this meticulous processing leaves you with nothing but one of the most easily digested, assimilated and most bioavailable sources of protein on the market.*

Check the stats: each 28 gram serving has an astonishing 24 grams protein—that's 86% protein by weight! And with zero sugar, lactose, fat and only one carbohydrate, nothing out there matches our formula, or even comes close. So you can feel confident that you will be feeding your muscles to their fullest potential.*
