Nattokinase is an enzyme isolated from Natto, a traditional Japanese fermented soy food. Natto has been consumed safely for thousands of years for its numerous health benefits. More recently, both clinical and non-clinical studies have demonstrated that Nattokinase supports heart health and promotes healthy circulation. Each serving of NOW® Nattokinase provides 2000 FU (Fibrinolytic Units) to help keep already healthy levels of blood clotting factors within a normal range.*

SUGGESTED USAGE: As a dietary supplement, take 1 Vcap® 1 to 12 times daily on an empty stomach. Consider taking this product in combination with NOW® CoQ10, Tru-E BioComplex™ and Fish Oil.

Nattokinase

PROMOTES CIRCULATORY HEALTH*

100 mg
