NOW® Glyconutrient Complex contains Glyconutrient Blend and ImmunEnhancer™. Glyconutrient Blend is a proprietary blend of ingredients that supplies eight immune supporting glyconutrients (sugars) from whole coffee fruit and other natural substances. Glyconutrients are essential components of cell signaling molecules that are involved in a multitude of intercellular communication functions, and play an especially important role in immune response. ImmunEnhancer™ is a polysaccharide from Larch called Arabinogalactan. Scientific studies have shown that Arabinogalactan can support a healthy immune system through its effects on NK Cells. A strong, responsive immune system is the foundation of good health. Use NOW® Glyconutrient Complex to help support healthy immune function seasonally and throughout the

SUGGESTED USAGE: As a dietary supplement, take two 1/4 level teaspoons 1 to 2 times daily. Consider taking this product in combination with NOW® Immune Renew™ and Beta-Glucan.

Glyconutrient Complex

CELLULAR IMMUNE SUPPORT

Powder

- Supports Intercellular Communication*
- Provides 8 "Essential" Sugars
- With Glyconutrient Blend and ImmunEnhancer™
