Quercetin is a naturally occurring bioflavonoid that supports healthy histamine levels, thereby helping to sustain proper immune system function. Bromelain, an enzyme derived from pineapple stems, also supports healthy inflammatory response. The combination of Quercetin and Bromelain therefore provides support for the balanced immune system responses important for the management of occasional seasonal discomfort.*

SUGGESTED USAGE: As a dietary supplement, take 2 capsules 20 minutes before meals, 2-3 times daily. Persons with sensitive stomachs may prefer to take capsules with meals.
