*These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.

Quercetin is a naturally occurring bioflavonoid found in high concentrations in red wine, onions and green tea. Quercetin possesses powerful antioxidant properties and, like other bioflavonoids, has the ability to stabilize cell membranes. These qualities contribute to Quercetin's ability to support healthy histamine levels and balanced immune function. In addition, clinical studies have demonstrated that Quercetin may support prostate health.*

SUGGESTED USAGE: As a dietary supplement, take 1 Vcap® daily as needed with meals, or as directed by a health care practitioner. Consider taking this product in combination with NOW® Bromelain and Vitamin C.
