

HEMOXY
SUPPLEMENT FACTS

Serving Size: 4 Sustained-Release Capsules Servings Per Container: 30		
	Amount Per Serving	%DV
VASOBLAST™ (Blood Volume Expansion Complex)		
Arginine Glycerol Glycopeptide	3000 mg	**
Arginine Creatine Peptide		**
Arginine Oligopeptide		**
Pentose Phosphate		**
MYOVOLIX™ (Muscle Cell Swelling Complex)		
Creatine Glutamine Peptide	500 mg	**
Glutamine		
Taurine		
Leucine		
Isoleucine		
Valine		
** Daily Value (DV) not established		
OTHER INGREDIENTS: Gelatin, Magnesium Sterate, Silica, Microcrystalline Cellulose.		
Recommended Use: Dr. Darren Burke (PhD) recommends 4 capsules every day. On training days, take 4 capsules 30-60 minutes before exercise. On non-training days, take 4 capsules in the morning. For best results use HEMOXY every day and combine with resistance exercise 3-5 days per week.		

HEMOXY is used by athletes during training, competition and recovery to immediately enhance NO production, vasodilation, tissue oxygenation & muscle volume.*

HEMOXY is the first dietary supplement to contain nanodiffusion hemodilators and muscle cell volumizers designed to dramatically enhance vascularity, muscle pumps, strength and endurance. In Exercise Physiology, the “PUMP” is called transient reperfusion hypertrophy and it is the most powerful anabolic signal in our body. The unique ingredients in **HEMOXY** will increase your blood oxygen carrying capacity and your muscle cell volume (PUMP) which will promote amazing anabolic growth.*

ENCHARGE
SUPPLEMENT FACTS

Serving Size: 3 Sustained-Release Capsules Servings Per Container: 56		
	Amount Per Serving	%DV
MYOCHARGE™ (Creatine Muscle Amino Peptide Complex)		
Creatine Glutamine Peptide	1620 mg	**
Creatine Leucine Peptide		**
Creatine Isoleucine Peptide		**
Creatine Valine Peptide		**
Creatine Monohydrate		**
SINERGY™ (Cellular Myo-Stimulant Complex)		
Siberian Rhodiola Rosea	600 mg	**
Beta-Alanine		**
** Daily Value (DV) not established		
OTHER INGREDIENTS: Gelatin, Magnesium Sterate, Silica, Microcrystalline Cellulose.		
Recommended Use: Dr. Darren Burke (PhD) recommends 3 capsules in the morning and 3 capsules in the afternoon. On training days, take one of your servings 30-60 minutes before exercise. For best results use ENCHARGE every day and combine with resistance exercise 3-5 days per week.		

ENCHARGE is a dietary supplement used by male and female athletes during training, competition and recovery to immediately enhance endogenous (natural) phosphocreatine levels in skeletal muscle*.

ENCHARGE makes creatine work “faster and bigger”. The **SINERGY** complex makes creatine work faster enabling your nervous system and muscle cells to re-charge with high-energy compounds faster during and after exercise. The **MYOCHARGE** complex makes creatine work bigger because the unique creatine amino acid peptide molecules in **ENCHARGE** enhance muscle protein synthesis, strength and size.*

Warning: Consult a physician before using if you are unaware of your current health status, if you have a medical condition, or if you or your family has a medical history of cardiovascular disease, diabetes, psychological disorders, hormonal abnormalities, or if you are taking any prescription drug. This product is not intended for use by those with a serious medical condition or pregnant or lactating women. Discontinue use two weeks prior to surgery. Do not exceed maximum daily dosage. Do not use if safety seal is broken. For adult use only. **KEEP OUT OF REACH OF CHILDREN.**

HYPERBOLIC FORMULA is a dietary supplement used by male and female athletes during training, competition and recovery to immediately enhance functional gains in strength, energy and endurance.

HYPERBOLIC FORMULA is the most powerful strength and endurance stack ever created. It is the ultimate combination of the two most powerful strength and endurance supplements available on the market today: **ENCHARGE** and **HEMOXY**. Our team of leading scientists tested the combination of **ENCHARGE** and **HEMOXY** and found incredible increases in core strength, functional skeletal muscle growth and athletic endurance. These changes were more than the significant gains noted when taking **ENCHARGE** or **HEMOXY** alone and can only be attributed to the synergistic effect of these unique formulae on muscle growth and plasma volume expansion.

“I recommend **HYPERBOLIC FORMULA** for creating functional gains in both strength and endurance fast!”
RIVALUS CEO & Founder, Dr. Darren Burke

RIVALUS Sponsors Athletes and Supports Academic Research.

† In a 8-week clinical trial subjects consuming HEMOXY and ENCHARGE and following a structured weight training program increased vascularity, athletic endurance, and increased muscle mass and strength significantly more than placebo group subjects. *These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease. © 2011 RIVALUS Inc.

DIETARY SUPPLEMENT

CLINICALLY TESTED

HYPERBOLIC FORMULA Study Reports Rapid Increase in Strength & Endurance

In a randomized, double-blind, placebo controlled study fifteen male and fifteen female athletes consuming **HYPERBOLIC FORMULA** for 8 weeks and exercising regularly increased strength by up to 30% and endurance by up to 22% compared to changes of 12% and 9% respectively for placebo group subjects.

Category	HYPERBOLIC FORMULA	PLACEBO
STRENGTH	30%	12%
ENDURANCE	22%	9%

HYPERBOLIC FORMULA was clinically tested on athletes to confirm that it maintains normal physiological function (Safe) while improving performance (Effective).

HYPERBOLIC FORMULA does not contain any substance banned by national college sports associations. It will not produce an Adverse Analytical Finding as defined by the World Anti-Doping Agency (WADA) or the International Olympic Committee (IOC).

THIS PRODUCT WILL NOT CAUSE AN ADVERSE ANALYTICAL FINDING AS DEFINED BY THE INTERNATIONAL OLYMPIC COMMITTEE (IOC) OR WORLD ANTI-DOPING AGENCY (WADA).
