

43 GRAMS OF PROTEIN PER SERVING

ASPARTAME FREE

ProQuick™ is a scientifically designed all natural food drink that can be used by athletes or any fitness conscious individuals.

ProQuick has a combination of high quality proteins as well as complex carbohydrates, with multivitamins, minerals and other important nutrients.

ProQuick was developed to maximize absorption and utilization of specific proteins, which enhance muscle tissue recovery and regeneration. Adequate protein supplementation is necessary for those who routinely exercise to prevent the breakdown of lean muscle tissue. This quality product is rich in branch-chain amino acids that are important to bodybuilders since they are metabolized directly into the muscle.

ProQuick mixes quickly without the need of a blender and it tastes great. Each serving of this delicious nutritional drink provides 43 grams of whey proteins, which have the highest biological value of all proteins.

WARNING: Consult a physician before use if you have been treated for or diagnosed with, or have a family history of, any medical condition(s). Keep out of the reach of children.
