BCAA 2200 Benefits:

- BCAAs are especially important for bodybuilders since they comprise a large percentage of the amino acid composition of muscle.*
- BCAAs are also the only amino acids that are directly metabolized in the muscle as opposed to the liver.
- Provides dual benefits since BCAAs can be used to build protein or broken down in muscle to supply a direct source of energy.*
- BCAAs provide muscle nitrogen support for a variety of metabolic functions, which can be especially important during heavy training.*
- Enhanced with high potency Vitamin B-6, which plays an essential role in BCAA metabolism for optimal usage.*

Contains more BCAAs per softgel compared to our previous formula, Amino 1800.
