Isoflavones are naturally occurring plant compounds that are particularly concentrated in soybeans. Genistein, Daidzein and Glycitein are the major isoflavones found in soybeans. NOW® Extra Strength Soy Isoflavones Vcaps® have been extracted through a proprietary process that results in the highest natural levels of Genistein – a quantum leap over most soy isoflavone products.

SUGGESTED USAGE: As a dietary supplement, take 1 Vcap® 1 to 3 times daily. Consider taking this product in combination with NOW® Flax Meal, Progesterone Cream and Broccoliology™.
