**SUGGESTED USAGE:** As a dietary supplement, take 1 softgel every 2 days with a meal containing fat, or as directed by your healthcare practitioner.

**HOW IT WORKS:** The major biologic function of Vitamin D is to maintain healthy blood levels of calcium and phosphorus. Vitamin D supports bone health by promoting calcium absorption and bone mineralization.\* Vitamin D also plays an important role in immune function and helps to regulate cell growth and differentiation.\*

**CAUTIONS/INTERACTIONS:** Although the Upper Limit for Vitamin D is 4,000 IU per day, comprehensive research demonstrates that higher dosages are safe. However, this product should be taken under the supervision of a healthcare professional. Vitamin D should be used cautiously by those taking cardiac glycosides and anyone with hypercalcemia. Vitamin D supplements may interact with atorvastatin. If you are taking any of these prescription medications, consult your healthcare practitioner before using this product. For more information on this product go to [www.protocolforlife.com/P0372](http://www.protocolforlife.com/P0372).
