P0405

V3

SUGGESTED USAGE: As a dietary supplement, take 1 tablet 1-2 times daily, or as directed by your healthcare practitioner.

HOW IT WORKS: B-Complex Vitamins are needed by the body for energy production, synthesis of hormones and blood cells, healthy nervous system function, and numerous other metabolic processes.* The forms of the B Vitamins found in foods and most supplements, however, are not readily utilized by the body and require conversion into their active forms before they can perform their functions as cofactors in biochemical reactions. Co-Enzyme B-Complex contains B Vitamins already in their active or "Coenzyme" forms and are enteric coated to enhance bioavailability.

CAUTIONS/INTERACTIONS: B Vitamins may interfere with the absorption and utilization of certain antibiotics, such as tetracycline and sulfa drugs. Also, B Vitamins may interact with some chemotherapy agents and they should only be used concurrently under the supervision of a physician. For more information on this product, go to www.protocolforlife.com/P0405.

Formulated by doctors and clinical scientists exclusively for licensed healthcare practitioners. Manufactured in an A-rated Good Manufacturing (GMP) Certified facility.

This bottle contains an Ageless® oxygen absorbing packet to ensure freshness. Do not eat packet.
