SUGGESTED USAGE: As a dietary supplement, take 1 lozenge daily. Chew lozenge or hold in mouth until dissolved and swallow. Take higher amounts on the advice of your healthcare practitioner.

HOW IT WORKS: Vitamin B₁₂ has the largest and most complex chemical structure of all the vitamins. Most of its functions are related to its co-enzyme activity, such as enzymes needed for the production of DNA during cell division.* It is required for the synthesis of the amino acid methionine, from homocysteine, which helps to maintain already healthy serum homocysteine levels.* B₁₂ is also necessary for the maintenance of a healthy nervous system.*

CAUTIONS/INTERACTIONS: A number of drugs can affect Vitamin B₁₂ levels or its utilization. If you are taking any prescription medications consult your healthcare practitioner before taking this product. For more information on this product go to www.protocolforlife.com/P0496.

PROTOCOL
FOR LIFE BALANCE™

Methyl B₁₂

5,000 mcg Methylcobalamin with Folic Acid

- Healthy Homocysteine Metabolism*
