SUGGESTED USAGE: As a dietary supplement, take 1 tablet daily, preferably with a meal or as directed by your healthcare practitioner.

HOW IT WORKS: ProtoSorb™C is a formulation containing Transport C-PLUS® Threonic Acid, which has been shown to enhance uptake of Vitamin C.* This buffered, non-acidic Vitamin C supplement is superior because it also contains Alpha Lipoic Acid, an antioxidant known to help regenerate both Vitamin C and glutathione in the body.* Furthermore, studies suggest that Alpha Lipoic Acid may further promote the body's utilization of Vitamin C, by activating uptake into cells via the glucose transport pathways.* The addition of Bioflavonoids to this formula synergistically helps to create a well-absorbed, highly bioavailable Vitamin C supplement.* These ingredients also work cooperatively with other antioxidants, such as Vitamin E and Coenzyme Q10.*

Vitamin C is required for the synthesis of collagen, a structural component of blood vessels, tendons, ligaments and bone. In addition, Vitamin C is required for the synthesis of the neurotransmitter norepinephrine and of L-carnitine, which is required for the transport of fats into the mitochondria of cells.*

CAUTIONS/INTERACTIONS: Doses of >2000 mg Vitamin C per day may cause GI disturbances in sensitive individuals and may not be advisable for some people. Vitamin C may interact with oral estrogen medications, HMG CoA inhibitors, and blood thinning medications. Consult your healthcare practitioner if you take any prescription medications before exceeding the recommended dosage for this product.
