SUGGESTED USAGE: As a dietary supplement take 1 Softgel 1 to 2 times daily, or as directed by your health-care practitioner.

HOW IT WORKS: Ortho-E™ is a unique biologically balanced, formula designed to provide optimal Vitamin E activity. This product features 100% natural, Non-Genetically Modified sources of all 8 isomers (forms) of the Vitamin E "family" in ratios similar to what is found in a healthy diet. It provides the superior benefits of food-source Vitamin E versus those obtained from traditional E supplements.

Ortho-E™ has been carefully blended to supply high levels of the natural gamma and delta "desmethyl" forms of both tocopherols and tocotrienols. This is important because recent research indicates that these isomers work best as a team to quench the lipid and nitrogen free radicals known to cause injury to cells and tissues.* This product supports a healthy cardiovascular system, youthful skin and nervous system function with potent antioxidants.* This science-based natural Vitamin E supplement is unlike any other and the first to combine all of these benefits in one convenient non-GMO formula!*

CAUTIONS/INTERACTIONS: Please consult your physician before using if you are currently taking any medication, especially blood-thinners, tricyclic antidepressants, phenothiazines, beta-blockers, chloroquine and cyclosporine. Discontinue use before surgery. Vitamin E may be depleted by cholesterol medications and anticonvulsant drugs. For more information on this product go to www.protocolforlife.com/P0950
