NOW® Awe-Slim™ is a nutritional supplement containing Hydrolyzed Collagen, an easily digested and assimilated protein. The collagen protein in Awe-Slim™ helps to support the body's ability to maintain lean muscle tissue, which in turn can facilitate fat loss. In addition, Awe-Slim™ contains Chromium, an important cofactor for carbohydrate utilization, as well as Carnitine, which is an amino acid that is necessary for lipid oxidation. In providing the body with the nutrients needed to utilize fats and sugars more efficiently, NOW® Awe-Slim™ can help to maintain a healthy body weight.*
