SUGGESTED USAGE: As a dietary supplement, take 2 softgels 1 to 3 times daily with food or as directed by your healthcare practitioner.

HOW IT WORKS: The Omega-3 Fatty Acids (FAs) abundant in fish oils are known for many health benefits associated with their ability to support a healthy, balanced inflammatory response.* Through this mechanism, Omega-3 FAs assist in the maintenance of cardiovascular health, immune system function, and joint comfort.* Omega-3 FAs have also been shown to promote proper function of the central nervous system, thereby playing a critical role in mood and cognition.*

CAUTIONS/INTERACTIONS: Omega-3 fatty acids may interact with aspirin or warfarin. In addition, Omega-3 fatty acids may interact with cholesterol lowering statin medications and antihypertensives. For more information on this product go to www.protocolforlife.com/P1661

Formulated by doctors and clinical scientists exclusively for licensed healthcare practitioners.

This bottle contains an AGELESS® oxygen absorbing packet to ensure freshness. Do not eat packet.
