NOW® Resveratrol Liquid Concentrate delivers the natural nutrient profile found in Genuine Whole Foods.

Resveratrol is a polyphenol that is naturally found in the skin of red grapes, certain berries, and other plants. Recent research has shown that Resveratrol can support healthy cardiovascular function through its powerful antioxidant properties, as well as through its ability to promote a healthy inflammatory response. NOW® Resveratrol Liquid Concentrate also contains Proanthocyanins (OPC's) from Grape Seed Extract, which naturally complement Resveratrol's cellular and cardiovascular benefits by providing a broader spectrum of antioxidant protection.*
