SUGGESTED USAGE: As a dietary supplement, take 2 capsules 1 to 2 times daily with food. For intensive use, increase dosage as directed by your healthcare practitioner.

HOW IT WORKS: MSM (Methylsulphonylmethane) is a natural form of organic (bioavailable) sulfur found in all living organisms. This natural compound, researched since 1979, provides the chemical links needed to form and maintain numerous different types of tissues found in the human body, including connective tissue such as articular cartilage.* While MSM is a natural component of almost all fresh fruits, vegetables, seafood and meat, food processing methods reduce sulfur levels.

CAUTIONS/INTERACTIONS: MSM is generally held to be nontoxic. Animal studies have yield no observed adverse effect at ingestion of 1.5 grams per kilogram bodyweight for 90 days. MSM is not related to sulfa drugs. For more information on this product go to www.protocolforlife.com/P2120.

Formulated by doctors and clinical scientists exclusively for licensed healthcare practitioners.
