This potent Garlic product is standardized to yield a high level of allicin precursors, which convert to allicin when ingested. It is enteric coated so that this conversion occurs in the upper intestine for optimal absorption and to protect against garlic's pungent odor. The high allicin is achieved through a special process that keeps Garlic's moisture low. This process maintains the high allicin potential while preserving all of the natural goodness of whole fresh garlic. Enjoy the benefits of this odor-controlled garlic tablet!

SUGGESTED USAGE: As a dietary supplement, take 1 tablet daily with a meal. Consider taking these other NOW® products: Hawthorn Extract, Immune Renew™ and Chlorophyll.
