

DIETING CUTTING HARDENING ENERGY PRE-CONTEST**CLINICALLY
RESEARCHED**Powered by
our exclusive
**MICRONIZED
RAPID
DELIVERY**

DESCRIPTION: You're holding new JETFUEL® SUPERBURN™ with Micron RD, the most anticipated addition to the JETFUEL lineage since it took the energy & thermogenics world by storm in 2005. With its state-of-the-art rapid delivery technology, SUPERBURN is expertly engineered to catalyze the achievement of virtually any advanced dieting, physique or performance goal for which average levels of energy and fat-burning thermogenesis just won't cut it.*

SCIENCE: SUPERBURN is driven by Micron RD, a micronized rapid delivery technology. High "jet-like" air pressures are used to gently reduce the average particle size of the SUPERBURN formula to less than 20 microns. This micronization process enhances the total reactive surface area, which in turn supports faster speeds of delivery and onset of results.* GAT's proprietary micronization process also allows each capsule to hold over 300 mg more actives, including compounds capable of stimulating increases in thermogenesis of up to 12% and delivering 60,000 Heat Units.* To support even higher speeds of delivery, each SUPERBURN capsule has been infused with MCTs and Explotab®, a pharmacologically studied "superdisintegrant" obtained by cross-linking pure potato starch.

STACKING: To support a sustained muscle-building state, supplement your diet with MUSCLE MARTINI™ and SUPERTEIN™.

SUGGESTED USE: Day 1: Start by taking 1 capsule with 8 oz of cold water, 30 minutes before breakfast. Repeat 30 minutes before lunch. Day 2 and beyond: Depending on tolerance, take 2-3 capsules with 8 oz of cold water, 30 minutes before breakfast. Repeat 30 minutes before lunch. Do not take SUPERBURN within 6 hours of bedtime. **Do not take more than 6 capsules daily, or 3 capsules in a single setting.**

WARNING: NEVER CONSUME MORE THAN 6 CAPSULES OF JETFUEL SUPERBURN DAILY.
