V2

SUGGESTED USAGE: 1 Vcap® daily or as directed by your healthcare practitioner.

KEEP REFRIGERATED TO MAINTAIN HIGH POTENCY.

HOW IT WORKS: Probiotic microflora are friendly bacteria that colonize the gut. They help to maintain structural and functional integrity of the intestinal lining, support proper intestinal motility, participate in the detoxification process, and produce metabolites such as lactic acid that help to support healthy pH levels throughout the intestinal tract.* The presence of healthy gut flora is also known to be critical for normal digestion and immune function.*

CAUTIONS/INTERACTIONS: Probiotic supplements may temporarily increase intestinal gas or cause other temporary changes in digestion. No known drug interactions. For more information on this product go to www.protocolforlife.com/P2928.

Formulated by doctors and clinical scientists exclusively for licensed healthcare practitioners. Manufactured in an A-rated Good Manufacturing (GMP) Certified facility.
