SUGGESTED USAGE: As a dietary supplement, take 2 Vcaps® daily. For intensive use, take 2 Vcaps® 3 times daily under the supervision of your healthcare practitioner.

HOW IT WORKS: AHCC®, known formally as Active Hexose Correlated Compound, is a proprietary extract produced by cultivation and natural enzymatic modification of the vegetative portion (mycelia) of mushrooms from the Basidiomycetes family. Clinical studies have demonstrated AHCC®'s ability to support a healthy and balanced immune response, due to the promotion of natural killer cell activity.* In addition, AHCC® has been shown to support proper liver function and provide strong antioxidant protection.* AHCC® supports the maintenance of healthy cell cycle function and because of its low molecular weight and composition, is very easily absorbed by the body.*

CAUTIONS/INTERACTIONS: At doses exceeding the recommended daily serving, AHCC® has been associated with mild, transient GI disturbances. This product may interact with chemotherapy agents such as doxorubicin or ondansetron. For more information on this product go to www.protocolforlife.com/P3032.

This bottle contains an Ageless® oxygen absorbing packet to ensure freshness. Do not eat Packet. Store in a cool, dry place. Please Recycle.
