

Clarocet NRI is a Natural Reuptake Inhibitor that is designed to work when you need it most.

Independent clinical research has shown that, when taken on an *as needed* basis, the ingredients in Clarocet NRI aid in the relaxation of the Central Nervous System (CNS) and positively influence vital neurochemical processes. Studies suggest that, with consistent use and active participation in a wellness plan, the ingredients in Clarocet NRI may help to:

- Temporarily relieve nervousness, nervous tension or occasional anxiety caused by everyday stress
- Promote relaxation benefits in as little as 15 to 30 minutes
- Support a healthy neurotransmitter balance
- Maintain emotional wellness

Usage Instructions: As a dietary supplement, begin taking one capsule for the first seven days. If, after the first week, you feel it is necessary to take more than a single capsule per day, then you may increase your intake, which should not exceed four capsules within a 24-hour period. To ensure a consistent usage schedule, establish a time that is convenient for you. Or, for occasional use, take as *needed* one or more times daily.

Clarocet NRI may also be combined with Clarocet ERT, Clarocet CS and Clarocet PM.

To maintain product's maximum potency, store in a cool, dry place that is away from direct sunlight.

Supplement Facts

Serving Size: One Capsule
Servings Per Container: 60

	Amount Per Serving	% Daily Value
Vitamin C (as Ascorbic Acid)	5mg	8
Thiamin (B1) (as Thiamine HCl)	750mcg	50

Relieve nervous tension and occasional anxiety caused by everyday stress in 30 minutes or less^{†††}

Dietary Supplement
Sixty (60) Capsules

Safety Information

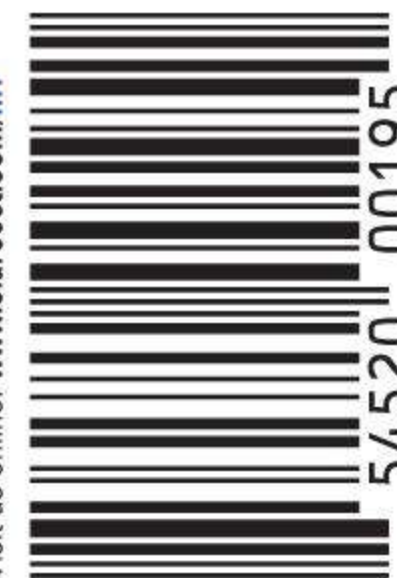

A consultation with a qualified healthcare professional is always recommended before adding Clarocet to your Wellness Plan. In certain instances, a person *must* consult with their primary care physician, including pregnant women or nursing mothers, individuals who have been diagnosed with a serious health issue, or those taking prescription medications.

St. John's Wort has been shown to increase certain individuals' sensitivity to UV sources, such as artificial light or natural sunlight. Limit excessive exposures to these sources and wear sunscreen with an appropriate level of SPF for your skin type when outdoors.

Tamper Evident: Double safety sealed with an outer shrink-wrap film and an inner-bottle freshness seal. Do not use if either seal is broken or missing.

Keep out of reach of children.
