

SUGGESTED USAGE: As a dietary supplement, take 2 tablets daily, preferably with a meal for the first 30 days. After 30 days, take one tablet daily with a meal as a maintenance dose.

HOW IT WORKS: Clinical Strength Cholesterol Pro™ contains two ingredients that have been scientifically tested for their effects on serum lipid levels already within normal range.* Bergamonte™ is a standardized polyphenolic extract derived from Bergamot (*Citrus bergamia*) which has a unique composition and high content of citrus bioflavonoid constituents. Bergamonte™ has been shown in clinical studies to help to support serum cholesterol levels and may also encourage proper blood sugar levels already within normal range.* CardioAid®, a proprietary plant sterol combination of Beta-Sitosterol, Campesterol and Stigmasterol, has also been demonstrated to support healthy cholesterol levels and overall cardiac health.*

CAUTIONS/INTERACTIONS: Certain Bergamot constituents may compound photosensitizing effects of some medications. This product may interact with cholesterol-lowering medications. Ezetimibe inhibits intestinal absorption of beta-sitosterol. Therefore, this product should not be used in combination with Ezetimibe. Pregnant/Lactating women or those currently taking other medications should consult with a healthcare practitioner prior to use.
