SUGGESTED USAGE: As a dietary supplement, take 1 softgel daily, preferably with a meal, or as directed by your healthcare practitioner.

HOW IT WORKS: Natural Lycopene is a powerful antioxidant carotenoid and the pigment that gives tomatoes, watermelon, and pink grapefruit their characteristic red color. Clinical studies have indicated that natural Lycopene works through a number of mechanisms to support cardiovascular health and healthy immune function.* In addition, epidemiological studies have determined that natural Lycopene may be particularly important for the support of prostate health, as well as for the health of the digestive tract.* One softgel of Protocol For Life Balance™ LYC-O-MATO® supplies 20 mg of Lycopene plus the other important antioxidants phytoene, phytofluene, beta-carotene and mixed tocopherols.

CAUTIONS/INTERACTIONS: There are no known drug interactions. For more information on this product go to www.protocolforlife.com/P3062.
