SUGGESTED USAGE: As a dietary supplement, take 1 capsule daily at bedtime on an empty stomach, or as directed by your healthcare practitioner.

HOW IT WORKS: Derived from chicken sternum cartilage, UC-II® consists of Undenatured (native) Type II Collagen which works with the body's natural inflammatory defense processes to develop tolerance to Type II collagen.* This represents a unique mechanism to promote joint mobility and flexibility.* UC-II® supports the maintenance of healthy joints through the support of a balanced, healthy immune response to everyday wear and tear.* UC-II®'s patent protected composition has demonstrated its efficacy in human clinical studies. Joint-UC™ is enhanced with Aquamin® Red Algae Minerals, a natural source of calcium and over 70 trace minerals.

CAUTIONS/INTERACTIONS: Although no significant adverse effects have been reported in the small trials of chicken collagen, theoretically, individuals who are allergic to chicken should not use chicken collagen. There are no known drug interactions with UC-II®. For more information on this product go to www.protocolforlife.com/P3134
Do Not Eat Freshness Packet. Keep in Bottle.
