SUGGESTED USAGE: As a dietary supplement, take 1 to 2 softgels 1 to 3 times daily, preferably with fat containing meals, or as directed by your healthcare practitioner.

HOW IT WORKS: Produced naturally within the body, ubiquinol is a form of CoQ₁₀ that is essential for use in cellular energy production. In addition to its critical role in energy production, it is one of the most powerful known lipid-soluble antioxidants available, protecting the body's cells from damage caused by oxidative stress and free radicals.* Until recently, the only way to increase ubiquinol levels in plasma was to convert it from ubiquinone (CoQ₁₀) within the body, which research has shown becomes increasingly difficult with age. Ubiquinol has superior bioavailability to ubiquinone, as demonstrated in clinical trials.*

CAUTIONS/INTERACTIONS: Ubiquinol may interact with some medications. Please consult your healthcare practitioner before you use this product. For more information on this product go to www.protocolforlife.com/P3142.

Formulated by doctors and clinical scientists exclusively for licensed healthcare practitioners. Manufactured in an A-rated Good Manufacturing (GMP) Certified facility.

PROTOCOL
FOR LIFE BALANCE™

Ubiquinol 100 mg

- Cardiovascular Support*
 - Higher Bioavailability
 - Active Antioxidant
- Form Of CoQ₁₀
60 Softgels

A Dietary Supplement

Supplement Facts

Serving Size 2 Softgels Servings Per Container 30

Amount Per Serving

Ubiquinol (Kaneka QH®) (Reduced Form CoQ₁₀) 200 mg*

* Daily Value not established.

Other ingredients: MCT Oil (medium chain triglycerides), Softgel Capsule (gelatin, glycerin, water, carob) and Beeswax.

Manufactured by NHG, P.O. Box 2203, Sparks, NV 89431, U.S.A.

Contains no sugar, salt, starch, yeast, wheat, gluten, corn, soy, milk, egg, shellfish, polysorbates, preservatives or titanium dioxide.

Protocol For Life Balance™ CoQ₁₀ products contain only the 100% natural, all-trans form of CoQ₁₀ produced by fermentation.
