SUGGESTED USAGE: As a dietary supplement, take 3 capsules daily, or as directed by your health-care practitioner.

HOW IT WORKS: Protocol For Life Balance™ Glucosamine & Chondroitin with MSM combines three of the most researched and effective nutrients for supporting joint health in one dietary supplement.* Our Glucosamine and Chondroitin are both 100% sulfate-sourced, the most studied forms of these nutrients. In addition, we also include MSM (methylsulphonylmethane), an organic form of sulfur found in all living organisms. Studies have shown that these nutrients provide dietary components that support healthy joint structure and function.*

CAUTIONS/INTERACTIONS: Persons with known allergies to shellfish should not take this product. Chondroitin sulfate may cause mild gastrointestinal discomfort. Similar reactions have been reported with glucosamine and MSM, yet both of these compounds also are often suggested as supporting GI-tract health and function.* Clinical trials have disproven that glucosamine might adversely affect insulin sensitivity. The use of MSM can lead to abnormalities in the *in vivo* brain proton MR spectrum and *in vitro* cerebrospinal fluid NMR study, so should be revealed prior to undergoing diagnostic tests. For more information on this product go to www.protocolforlife.com/P3170.
