SUGGESTED USAGE: As a dietary supplement, take one softgel 1-3 times daily with a meal or as directed by your healthcare practitioner.

HOW IT WORKS: Coenzyme Q₁₀, also called ubiquinone, is present in almost all cells, where it is necessary for mitochondrial energy production.* The body's highest concentrations of Coenzyme Q₁₀ (CoQ₁₀) are found in the heart, where constant chemical energy availability is imperative. In addition to its benefits for cardiac function through energy production, CoQ₁₀ also functions as a powerful fat soluble antioxidant, providing protection against free radical attack for vascular structures, as well as for other tissues.*

CAUTIONS/INTERACTIONS: Coenzyme Q₁₀ may interact with anticoagulant and antihypertensive medications, as well as chemotherapy agents. Statin medications have been shown to decrease CoQ₁₀ levels in the body and CoQ₁₀ supplementation may be useful when taking these drugs. Consult your healthcare professional if you are taking any of these medications. For more information on this product go to www.protocolforlife.com/P3198.

Formulated by doctors and clinical scientists exclusively for licensed healthcare practitioners. Manufactured in an A-rated Good Manufacturing (GMP) Certified facility.
