SUGGESTED USAGE: As a dietary supplement, take 1 softgel 1 to 2 times daily with food, or as directed by your healthcare practitioner.

HOW IT WORKS: Coenzyme Q₁₀, also called ubiquinone, is preset in almost all cells, where it is necessary for mitochondrial energy production.* The body's highest concentrations of Coenzyme Q₁₀ (CoQ₁₀) are found in the heart, where constant chemical energy availability is imperative. In addition to its benefits for cardiac function through energy production, CoQ₁₀ also functions as a powerful fat soluble antioxidant, providing protection against free radical attack for vascular structures, as well as for other tissues.*

CAUTIONS/INTERACTIONS: CoQ₁₀ may reduce the anticoagulant effect of warfarin. In addition, CoQ₁₀ may interact with certain blood pressure medication, including diltiazem, metoprolol, enalapril, and nitrate. Statin medications have been shown to decrease CoQ₁₀ levels in the body and CoQ₁₀ supplementation may be beneficial when taking these drugs.* For more information on this product go to www.protocolforlife.com/P3208.

Formulated by doctors and clinical scientists exclusively for licensed healthcare practitioners. Manufactured in an A-rated Good Manufacturing (GMP) Certified facility.
