SUGGESTED USAGE: As a dietary supplement, take 1 Vcap® 1 to 3 times daily, preferably with food.

HOW IT WORKS: Curcumin, the active component in Turmeric, has been demonstrated to support joint mobility and flexibility, as well as support a balanced immune and inflammatory response due to its effects on the COX-2 enzyme and antioxidant potential.* However, in spite of all of these advantages, due to its hydrophobic quality, most forms of Curcumin lack bioavailability. Curcumin Phytosome provides Curcumin complexed with Phosphatidylcholine that clinically demonstrates increased absorption and bioavailability, delivering more of the benefits of this bioactive compound as compared to standard Curcumin extracts.*

CAUTIONS/INTERACTIONS: Curcumin may interact with anticoagulant and antiplatelet medications. If you are pregnant or lactating or have any history of liver, gall bladder or gastrointestinal problems, or if you are taking these medications, consult a health practitioner prior to use. For more information on this product, go to www.protocolforlife.com/P4642.

Formulated by doctors and clinical scientists exclusively for licensed healthcare practitioners.
