Supra K™ Fiber Complex

Directions: 2-4 Capsules, taken with 8 to 16 oz. of water 5 to 10 minutes before meals or as directed by a health practitioner. Keep out of reach of children.

Supra K™ Fiber Complex slows glucose absorption and creates a sense of fullness while reducing the absorption of calories. This impressive fiber blend, exerts up to 3 to 5 times the effects of other fibers. A key component of Supra K™ is glucomannan, a soluble fiber from the root of konjac. It is 3 times more viscous than guar and 7 times more viscous than psyllium.

Warning: Drink at least 4 oz. of water per capsule when taking FibraSlim™. FibraSlim™ capsules also contain an extract of mulberry leaves, shown to block certain enzymes that break down starches and sugars in the body, thereby diminishing after-meal rises in glucose and insulin.

Stimulant Free
Reduces appetite by promoting a feeling of fullness
