NOW® LipoTrim is a combination of nutrients that support fat digestion, metabolism, and utilization. Choline and Inositol aid in the metabolism of fat by the liver. The amino acid Taurine has been included to support bile production, which is essential for the digestion and absorption of dietary fats. Carnitine is critical in all tissues for the transport of fatty acids into the mitochondria, where the cells' energy is produced. This blend of ingredients therefore supports many aspects of healthy fat metabolism, which, in turn, may promote higher energy levels.\*
