

Living Fuel's Pure D & A is an all-natural dietary supplement that provides a safe and complete source of Vitamin D for everyone in the family. **Pure D & A** is derived from purified and emulsified fish liver oils mixed with protective natural tocopherols and tocotrienols from rice bran to protect against oxidation. Each softgel capsule contains the same amount of Vitamin D and Vitamin A found in one teaspoon of commercially available Cod Liver Oil. **Pure D & A** is rigorously tested to ensure that it is free of impurities including PCB's, heavy metals or oxidized contaminants. **Pure D & A** is the safest and healthiest product of its kind.

Utilize Pure D & A Sunshine Gel Caps in conditions of little to no sun exposure.

DIRECTIONS: As a dietary supplement, take 1 softgel capsule per 50 pounds of body weight per day, or as directed by a health professional. Pregnant women should not take more than 4 softgel capsules per day.
