Warning: CONSULT YOUR PHYSICIAN BEFORE USING THIS PRODUCT.
Warning: NOT FOR WOMEN OR INDIVIDUALS UNDER THE AGE OF 18 YEARS. This product is only intended for use by healthy adult males 18 years of age or older. Consult a physician or licensed health care professional before using this product if you have any pre-existing medical condition including but not limited to high or low blood pressure, cardiac arrhythmias, anxiety, depression, stroke, heart, liver, kidney or thyroid disease, seizure disorder, psychiatric disease, diabetes, prostate cancer, prostate enlargement, low "good" cholesterol (HDL), any other medical condition, or if you are using any other dietary supplements, prescription drug, or over-the-counter drug. Do not exceed recommended serving. Exceeding recommended serving may cause serious adverse health effects. Possible side effects include acne, hair loss, hair growth on the face (in women), aggression, infertility, and increased levels of estrogen. Discontinue use and call a physician or licensed qualified health care professional immediately if you experience rapid heartbeat, dizziness, blurred vision, or other similar symptoms. To report any adverse events call 1-800-332-1068.

Dietary Supplement

60 CAPSULES

TOKKYO CLOMIDEX

ORAL AROMATASE INHIBITING COMPLEX*

EXTREME

TOKKYO NUTRITION™

During a hormone cycle, testosterone is highly elevated in the body. High testosterone is what separates the big boys from the little boys in the gym! But, many guys forget that elevated testosterone levels in the body can also result in an unwanted elevation of estrogen. Excess estrogen can lead to feminizing side effects such as gyno and bloating. Tokkyo Clomidex Extreme effectively blocks elevated levels of estrogen during a hormone cycle! Using Tokkyo Clomidex Extreme during and after a hormone cycle will minimize estrogen conversion and also help you maintain your hard earned gains.*

Note: If you are a professional or amateur athlete subject to performance enhancing substance testing, do not use this product unless cleared by your sanctioning body as it may cause a false reactive result for a urine or blood drug test.
