Memoren™
Stress & Cognitive Support

Nutritional support for:

- Memory
- Fatigue
- Mild Anxiety
- Sadness
- Overactive brain
- Concentration

Memoren™ is excellent for nervous system and memory support while providing occasional stress relief. *Bacopa monnieri* has been used in traditional Ayurvedic medicine to support the nervous system and may support brain function and learning*. It also helps to modulate reactions to occasional stress. These effects may be due to antioxidant protection of processing centers in the brain by altering superoxide dismutase (SOD), catalase (CAT), and glutathione peroxidase (GPX) levels. This formula also contains *Ginkgo biloba* for support of the circulatory system. *Convolvulus pleuricaulis* and *Centella asiatica* have been added to reduce occasional stress, and for memory enhancement, support in revitalization of connective tissue, and their general tonic effects (both are considered Rasayana in Ayurveda). Memoren™ is a good tool to adjust Vata imbalances of the nervous system, and its ingredients regulate the tone and elasticity of blood vessels.

Naturally Grown
Himalayan Herbs
