

Offensive smells, including body odor, bad breath, and flatulence, occur when food is decomposed by intestinal bacteria into odor-causing substances, such as ammonia, indole, and skatole.

Deodorex™ features Champex® — a patented proprietary extract of champignon mushroom. Champex effectively reduces body odors where they originate, by decreasing levels of these toxic chemicals in the intestines and blood.*

Champex also helps cleanse the body, purify the blood, and maintain normal levels of uric acid.*

The subject of *in vitro*, *in vivo*, and human clinical studies, Champex has been shown to:

- Reduce body odors by up to 60%*
- Inhibit the chemical that causes bad breath*
- Purify the blood of ammonia*
- Maintain normal uric acid levels*
- Support the health of the kidneys*

Deodorex can be used as part of a detox regimen and for continuous detox support year-round.
