Vitamin D3 is an essential nutrient that works with Calcium to help develop strong bones and teeth. Vitamin D3 also supports normal antibody production by the immune system and supports breast health.* An analysis of 5 studies concluded that increasing Vitamin D intake up to 2000 IU per day could promote colon health.* Recent evidence also indicates that increasing Vitamin D intake can support the health of the pancreas.* Supplementing with Vitamin D3-1000 is an easy and convenient way to increase your daily Vitamin D intake.*
