

****Supportive but not conclusive research shows that consumption of EPA and DHA Omega-3 fatty acids may reduce the risk of coronary heart disease. One serving of Fish Oil provides 720 mg total of EPA, DHA and other omega-3 fatty acids. See nutrition information for total fat and cholesterol content.**

Odor-less Fish Oil contains EPA and DHA, two Omega-3 fatty acids that help support and maintain the health of your cardiovascular and circulatory systems.* Omega-3 fatty acids are considered one of the "good" fats and help maintain triglyceride levels already within a normal range.* Odor-less Fish Oil is coated to minimize the after-taste and fish burps! Nature's Bounty Fish Oil is purified to eliminate heavy metal contaminants such as mercury, PCBs and dioxins.
