

**RECOMMENDED USE:** Take 1 softgel 3-4 times daily with a meal or as directed by your health care provider.

**WARNING:** Do not exceed 6 softgels in any 24 hour period. Use only under the advice of your physician if you have a medical condition or are taking other medications. If you are pregnant or nursing, have heart disease, kidney disease, depression, diabetes or difficulty in urination due to enlargement of the prostate, seek the advice of a health care professional before using this product.

**STORAGE INSTRUCTIONS:** Protect from heat, freezing, direct sunlight, and high humidity (above 65%). Keep container tightly closed when not in use. Keep out of reach of children.

**DESCRIPTION:** CLA or conjugated linoleic acid is a naturally occurring fatty acid in animal tissue and food sources, including beef, poultry, eggs and dairy products such as cheeses, milk and yogurt. CLA was discovered by accident in 1978 by Michael W. Pariza at the University of Wisconsin while looking for mutagen formations in meat during cooking. While small amounts can be obtained through your diet, supplementation may have a substantial impact on how effectively our body chemically decomposes and deposits fat in our cells. Some of the more recent research has shown that use of CLA has proven to be extremely effective in reducing body fat and increasing lean muscle mass.\*
